

Greetings West Amwell, Stockton, Lambertville and South Hunterdon students and parents!

Are you, or anyone you know a **LEGO** fanatic? Have you ever wanted to build a programmable robot using **LEGO**'s? Here is your chance! No experience required.

In the weekly Summer Enrichment sessions, 2nd through 7th grade students will work with **NXT** and **EV3** **LEGO** Robotics Systems. Working individually and in teams, students will begin building and programming simple automated machines. When sufficient skills are acquired, teams will progress into building and programming an autonomous **NXT** or **EV3** robot that will perform specific skills on a game mat. The all-time favorite, **Battles of the Bots** will also take place on the final day of each session!

This course is a wonderful introduction to real world application of science, technology, engineering and mathematics in addition to fostering collaboration, respect and creativity. West Amwell Summer Enrichment is proud to offer a unique program to all students in our district.

PROGRAM DATES:

June 25, 26, 27, 28, 29

July 16, 17, 18, 19, 20.

July 30, 31, 1, 2, 3

August 13, 14, 15, 16, 17

Each week for which you register will have five (5) day sessions.

Each daily session will run from **9 a.m – Noon** in the West Amwell Elementary Art Room.

A snack, and drink will be provided for all participants daily.

Weekly prizes for Project Specialty Events Winners!

Take advantage of the “**EARLY BIRD**” rates and save money !.

Sign up using the attached **GOOGLE FORM** before the end of **MARCH**.
